PURPOSE

The purpose of this workshop is to address the requirements of Unit Standard "Conduct Moderation of Outcomes-based Assessment"

ID nr. 115759, NQF level 6; Credits 10

WORKSHOP LEARNING OBJECTIVES

In preparing for assessment against Unit Standard, participants will learn how to:

- Demonstrate understanding of moderation within the context of an outcomes-based assessment system,
- Plan and prepare for moderation,
- Conduct moderation,
- Advise and support assessors,
- Report, record and administer moderation, and
- Review moderation systems and processes.

LEARNING ASSUMED TO BE IN PLACE

The credit calculation is based on the assumption that learners have previous assessment experience when starting to learn towards this unit standard, and in particular, recognition for the unit standard: 115753: "Conduct outcomes-based assessments". It is further assumed that the person has evaluative expertise within the field in which they are moderating assessments.

FACILITATION METHODOLOGY

Learners are required to participate fully in group and individual learning activities throughout the workshop. Learners are also encouraged to identify and express their specific learning needs and to contribute freely from their own experience. During the 2 day contact session, the facilitator also focus on change management and motivational aspects, as we've identified these issues as key areas of SAQA and implementing the NQF.

ASSESSMENT METHODOLOGY

During the workshop, participants will be briefed on how to prepare and present a Portfolio of Evidence for assessment against Unit Standard 115759: Conduct moderation of outcomes-based assessment.

As soon as a candidate is found to be competent, and once NCL has received endorsement – including your official registration number from the ETDP SETA, we will issue the necessary certificate on NQF level 6. (10 credits). This certificate will be accepted by SAQA and the relevant ETQA should you wish to register as a moderator.
